OWNED

SOME THINGS YOU MAY LIKE TO KNOW...

Decina's premium selection of inclusions, additional features & accessories allow you to indulge in & customise your bathroom like never before!

All Decina baths/spa baths can be ordered with an optional, chrome, gloss white or matte black pop-up plug, with an easy to clean, removable jewellery & hair catcher.

All Decina Dolce Vita spa baths feature flush fingertip adjustable **MINI & MAXI JETS, AIR CONTROLS** & flush **SUCTION COVERS**, in your choice of chrome, black or white, with a stainless-steel trim.

A selection of Decina's baths/spa baths can be fitted with an optional **OVERFLOW OUTLET**, which takes any excess water back to the waste.

A **BASE FRAME** is a factory fitted, galvanised steel base support frame with adjustable, self-levelling legs. Available for order with most Decina baths/spa baths & an included feature on all Dolce Vita spa baths, it makes for immediate, on-site installation.

EZI FRAME is a separate steel base support frame with adjustable, self-levelling legs. Available for order with select Decina baths/spa baths, it is simply glued on site to the bath base.

EZI FEET are self-levelling feet, available for order with select Decina inset baths/spa baths. Simply screw them into the factory fitted support feet on-site & pull the string to level the bath onto the floor.

EZI CLEAN is an exclusive coating on all Decina shower screens. This unique, premium glass treatment prevents the build-up of soap scum reducing cleaning time considerably.

CYCLONIC CLEAN™ Decina's dynamic flush, rimless toilet bowl design & hygienic Nano Glaze technology, sets the standard in toilet hygiene.

CYCLONE FLUSH™ technology, coupled with a rimless toilet bowl design, ensures a hygienic, sparkling white finish after every flush.

NANO GLAZE is a protective barrier applied to the toilet surface, protecting against 99.9% of bacteria & dirt, making cleaning easier than ever.

SOFT CLOSE SEATS & LIDS are a feature of all Decina toilets. When pushed down, the seat & lid close slowly to eliminate noise.

QUICK RELEASE SEATS Most Decina toilets feature a quick release seat & lid, which can be fully lifted off the toilet pan for quick, easy cleaning.

EZI HEIGHT toilets have an additional 45mm to the height of the toilet pan, making it safer & more comfortable, especially for taller users, the elderly & less mobile. Meets the ambulant requirements in clause 16 of AS1428.1 – Design for Access and Mobility.

Accessorize your bath or spa bath with Decina's luxury bath caddy. Made from premium, treated bamboo it comes with a matching bamboo soap dish & dispenser - **BC001**

FREESTANDING BATHS

Decina's freestanding baths are a contemporary design innovation which make a stunning bathroom focal point. Inspired by the latest European trends, these designs are simple to install with adjustable self-supporting feet. Additional hobs, frames and tiling aren't required & there are no limitations on placement.

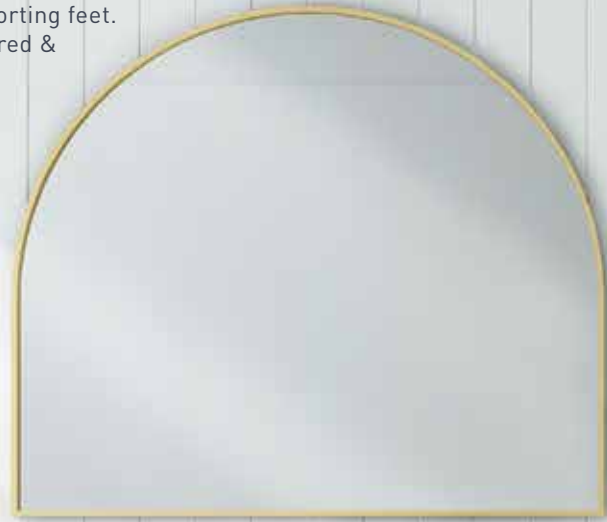

- Various lengths (1300mm - 1800mm) to suit any bathroom size
- For the full range of Decina bath & spa bath components & accessories see p. 35

A selection of Decina's freestanding baths can be fitted with an optional overflow outlet which takes any excess water back to the waste.

10 YEAR WARRANTY

Made to AS 2023:1995

VALENTINA

INSET BATHS & SPA BATHS

Inset baths & spa baths are the ideal space saving solution, perfect for bathroom renovations & shower bath applications. Decina's innovative four-sided tile bead, allows an inset bath to be integrated into a tiled wall, to create a flush, watertight finish.

ISLAND BATHS & SPA BATHS

As the name suggests, an island bath can be set away from walls, creating an 'island' style focal point. While the tiled edge of the bath hob, is functional & can be used for seating or storage.

 All Decina's inset & island baths/spa baths can be fitted with an optional overflow outlet, which takes any excess water back to the waste.

 A **BASE FRAME** is a factory fitted, galvanised steel base support frame with adjustable, self-levelling legs. Available for order with most Decina baths/spa baths & an included feature on all Dolce Vita spa baths, it makes for immediate, on-site installation base.

 **EZI FRAME** is a separate steel base support frame with adjustable, self-levelling legs. Available for order with select Decina baths/spa baths, it is simply glued on-site to the bath base.

 **EZI FEET** are self-levelling feet, available for order with select Decina inset baths/spa baths. Simply screw them into the factory fitted support feet on-site & pull the string to level the bath onto the floor.

BATH BASE SUPPORT SYSTEMS

Decina is synonymous for innovation & this passion has led to the development of three exclusive bath & spa bath base support installation systems. Featuring height adjustable, self-supporting feet, these base support solutions protect the bath's warranty & simplify installation by eliminating the need for further base support, such as expensive steel framing, wet bed slurry or a mortar bed*. Almost all Decina baths & spa baths can be fitted with at least one of the three base support solutions.

BASE FRAME

The BASE FRAME is an optional structural, bath support frame that is suitable for nearly all Decina bath & spa bath models (over 1400mm in length) & comes as standard on ALL Dolce Vita spa baths. This galvanized steel frame is factory fitted & fibreglass bonded to the base of the bath, making it ready for immediate on-site installation.

We recommend all baths & spa baths ordered with an overflow should be fitted with a BASE FRAME for elevation.

- Height adjustable feet add 90-120mm
- Time saving, easy installation

RECTANGLE STEEL BASE SUPPORT FRAME TAP002

CORNER STEEL BASE SUPPORT FRAME TAP004

EZI FRAME

The EZI Frame is an optional structural, bath support frame that is suitable for select Decina rectangle & oval baths & spa baths (between 1500-1800mm in length). This steel frame is adhered to the base of the bath on-site, by the installer or builder. At least 48 hours drying time is required for the adhesive, before the bath can be installed & the adjustable, self-leveling feet are simply screwed down to touch the sub floor.

- Height adjustable feet add 55-170mm
- Low cost, easy & time saving installation

SMALL (end waste 1500mm baths) EZF001

LARGE (end waste 1600/1700/1800mm baths) EZF002

CENTRE WASTE (small centre waste baths) EZF003

CENTRE WASTE (large centre waste baths) EZF004

EZI FEET

EZI FEET are an optional support system suitable for select Decina inset baths & spa baths. These adjustable, self-leveling feet offer an easy, on-site installation process, they simply screw into the factory fitted support feet in the base of the bath & then by pulling the string they are wound down to touch the sub floor.

- Height adjustable feet add 50mm-120mm
- Low cost, easy & time saving installation

EZI FEET (pack of 5) EZF005

*If being used as a shower bath installation an additional mortar base support is required between the frame & the floor.

SPA BATH COMPONENTS		DESCRIPTION	SANTAI	CONTOUR	DOLCE VITA
Mod Air Control		Regulates air flow to the jet system (low profile).	✓	-	-
Mod Mini Jet		Provides a concentrated body & foot massage (low profile).	✓	-	-
Mod Centro Jet		Adjustable jets, that circulate air & water flow from the side walls of the spa (low profile).	✓	-	-
Mod Suction		With safety front of mind, this suction jet draws water from the spa back to the pump for recirculation (low profile).	✓	-	-

DECINA'S ADVANCED HYGIENE TECHNOLOGY

CYCLONIC CLEAN™
Decina's dynamic flush, rimless toilet bowl design & hygienic Nano Glaze technology, sets the standard in toilet hygiene.

CYCLONE FLUSH™
This dynamic flushing technology, coupled with a rimless toilet bowl design, ensures a hygienic, sparkling white finish after every flush.

NANO GLAZE
This protective barrier technology is applied to the toilet suites ceramic surface, protecting against 99.9% of bacteria & dirt, making cleaning easier than ever.

SOFT CLOSE SEAT & LID
All Decina toilets feature a safe, practical & modern soft close seat & lid, which close slowly when pushed down to eliminate noise.

QUICK RELEASE SEAT
Most Decina toilets feature a quick release seat & lid, which can be fully lifted off the toilet pan for quick, easy cleaning.

EZI HEIGHT
Over-height toilet suites add an additional 45mm to the height of the toilet pan, making it safer & more comfortable, especially for taller users, the elderly & less mobile.

SEMI-INSET BASINS

Semi-inset basins have a low profile & are partially set into your vanity countertop. Maximizing space this practical style of basin effortlessly blends into any bathroom with a clean refined aesthetic.

SEMI-RECESSED BASINS

Semi-recessed basins are designed to sit on top of a vanity, with the basin edge projecting over the front. The perfect solution for smaller bathroom spaces this style of basin is extremely versatile & functional.

UNDER COUNTER BASINS

UNDER COUNTER basins are installed entirely underneath your vanity countertop. A hole is cut into your countertop to match the internal bowl dimensions, giving a completely seamless, integrated finish.
